

1850 Census

Clay County, Kentucky

For all people
with kinship to Clay County...

This is an Index and Compilation of all 1850 Clay County Kentucky Federal Census sections transcribed and found on the Clay County web page operated by Tim Spence.

This census has been transcribed by various person's and Enumerator's. Since transcriptions varied, all information presented herewith is on an "as is" basis. Please remember, error's will be found so you must take into account all variations of your ancestor's surname.

DISCLAIMER: This compilation has been sorted and reworked from the original work to facilitate finding relative's. To understand the difference please view the originals at Tim's web page. The first section is sorted by surname, the second by visitation, and the third is the census compiled. All surnames have been added to every visitation, an estimated year of birth has been calculated by the age given in the census, and only the main section of census has been entered here. You must go to the various sections to see if there is any more information. This work is not-for-profit, or commercial use of any kind.
